

# Your company already uses AI. Now put AI to work inside your operation.

Private AI running inside your systems, with people in command and everything visible in iSol Command.

## THE PAIN

**Small each time. Huge every year.**

Invoices, orders and reconciliations move from system to system by hand: copy, check, chase, fix.

**300 h/month**

≈ US\$ 57,600 a year

example: 400 items × 12 min × 3 people + 25% rework, at US\$ 16/h

## THE SOLUTION

**Your new digital employee.**

**iSol Assist · Digital Intern**  
does bounded tasks and asks for approval

**iSol Expert · Digital Specialist**  
owns a function, runs by rule and exception

People decide the exceptions. Every action is logged, with evidence.

## THE PROOF

**Already in production.**

**US\$ 10M** reconciled

**25,870** entries

**546** ERP commands

**6 agents + 1 person in a US client's monthly close**

Real finance case, cumulative through Aug 2026, client name withheld. Proof of execution, not a promise of identical results.

## HOW IT WORKS

### TODAY

**Signature**

kickoff the next day

### 30 DAYS

**Defined**

process, baseline, architecture and acceptance

### MONTH 2

**MVP**

built and in acceptance testing

### MONTH 2 TO 3

**Go-live**

first value in production · Gate 1

### MONTH 3 TO 12

**Stabilize and expand**

gains measured in Command · Gates 2 and 3

## THE INVESTMENT

**US\$ 2,000 /month**

12 months · US\$ 24,000 · first installment at signing

Implementation co-invested by iSol: no separate fee within the scope approved in the Discovery. On Site by proposal.

- ✓ AI Architect for 12 months
- ✓ Agents in production
- ✓ iSol Command and approvals
- ✓ Follow-up and improvement
- ✓ Discovery and process design
- ✓ Agreed integrations
- ✓ iSol Change: adoption and training
- ✓ Inference on iSol Private Cloud

## DELIVERY GUARANTEE

**Agreed acceptance**

set in the Discovery, before we build

**Extended timeline**

if the delay is ours, at no extra monthly fee

**Exit with no penalty**

at Gate 1, if acceptance does not come

Applies when the failure is solely iSol's responsibility, as set in the contract. We do not guarantee revenue, headcount reduction or ROI.

## PRIVACY

iSol Private Cloud or On Site, inside your company. OpenAI-compatible API.

Member of the NVIDIA Inception program

## NEXT STEP

**Shall we pick the first process?**
